

# Community Engagement

## Pre Design Phase (2012-2013)

- What did Raising Healthier Generations mean? What were the major missing infrastructure gaps in NC?
- Facility Based HL Drivers
- Indoor Park Concept- Social Gathering
- More Community, Water, Fitness spaces

## Design Phase 1.0 (2014-2015)

- Tested & Validated Initial Design Concept with Community
- Cross- Section of Stakeholders- community, health, education, design, cultural, innovation
- Multiple Methods
  - Third Party Focus Groups
  - In the Community with Vivo BOD's
  - Key Questions

## Design Phase 2.0 (2018-2019)

- Cross- Section of Stakeholders
- Healthier Generations Dialogues
  - Values Based Approach to re-defining the Healthy Living Drivers
- How did the community define our HL Drivers?
- Which & Why is a priority in their life today, 5 years, 10 years from now
- What's emerging in the community Vivo needs to know about & how can it help support?

## Construction (2021-2023)

- What are the mindsets, skill sets, tools and resources the community needs to be change makers in their own life & community?
